

I object strenuously to attempts by major phone companies to restrict and/or prohibit I.S.P.s (Independent internet providers) from using phone lines for their service to those of us who desire a choice of these services, and do hereby insist that you, the FCC, require major phone companies to continue to allow my ISP (the river.com) to continue its service to its customers. thank you
sincerely Scott Henning kb7jaq@theriver.com DOCKET qwest 04-416
